THAI MARKET ANALYSIS

Daily Technical Analysis Report - Stock Exchange of Thailand (SET)

Report Generated: 10 June 2026 | 22:27:18 (Bangkok Time)

This report provides a technical analysis of selected Thai equities listed on the Stock Exchange of Thailand (SET). The analysis incorporates multiple technical indicators including price support/resistance levels, On-Balance Volume (OBV), and MACD momentum signals. Recommendations are risk-adjusted and consider both entry costs and reward potential. All prices and values are denominated in Thai Baht (THB). Investors should combine this technical analysis with fundamental research and personal risk tolerance before making investment decisions.
