WATCHLIST TECHNICAL SUMMARY (SET)

Generated automatically on 2026-06-16 01:26:49 (Thailand Time)

Ticker	Cost	Price	Support	Resist.	OBV	MACD	Trend	Rec.	Important Note (THB Context)
ADVANC.BK	370.62	360.00	349.00	372.00	Falling	Bullish Territory	Sideways	Hold	Unprofitable position with falling OBV signaling distribution. Although MACD is in Bullish Territory, the lack of volume accumulation precludes adding positions.
AOT.BK	55.00	59.00	52.00	60.00	Rising	Bullish Territory	Bullish	Hold (Accumulate)	The powerful combination of a Rising OBV volume trend and MACD in Bullish Territory confirms strong institutional accumulation, justifying our decision to increase positions.
BBL.BK	168.45	172.50	164.00	176.00	Falling	Bearish Territory	Bearish	Sell	Position is currently profitable, but a falling OBV combined with a Bearish Territory MACD profile triggers capital preservation rules to lock in gains.
GULF.BK	57.92	65.00	59.50	68.50	Falling	Bearish Territory	Bearish	Sell	Profitable position showing clear structural breakdown. Both falling OBV and a Bearish Territory MACD dictate an immediate downgrade to Sell to lock in profits.
PRM.BK	8.70	8.45	7.95	8.95	Rising	Bearish Territory	Sideways	Hold	Position is currently unprofitable. While OBV is rising, the Bearish Territory MACD suggests momentum has not turned. Hold position without adding capital.
KTB.BK	32.53	35.75	34.00	36.00	Rising	Bearish Territory	Bearish	Sell	Position is profitable, but MACD has crossed into Bearish Territory. Under strict risk rules, this technical divergence triggers a Sell to lock in capital gains.

WATCHLIST TECHNICAL SUMMARY (SET)

Generated automatically on 2026-06-16 01:26:49 (Thailand Time)

Ticker	Cost	Price	Support	Resist.	OBV	MACD	Trend	Rec.	Important Note (THB Context)
PTT.BK	32.12	35.00	34.75	37.25	Falling	Bearish Territory	Bearish	Sell	Severe structural breakdown with falling OBV and MACD in Bearish Territory. Downgrade this profitable position to Sell to protect existing yields.
SCB.BK	143.38	140.00	132.50	141.50	Rising	Bullish Territory	Bullish	Hold (Accumulate)	A Rising OBV volume trend coupled with a healthy MACD in Bullish Territory indicates solid demand, justifying our decision to accumulate and average down.
WHA.BK	4.87	4.98	4.60	5.20	Rising	Bearish Territory	Bearish	Sell	Despite a rising OBV, the profitable position shows a Bearish Territory MACD crossover. Downgrade to Sell to lock in profits before further downside.
