MU	424.6235	864.01	1089.29	820.30	Bearish	Sell	Massive profit cushion exists from your entry of 424.6235. However, MU has entered a sharp short-term correction, dropping rapidly from near 1080. Securing profits is highly recommended before gains erode further.

ORCL	183.7172	213.68	250.25	209.45	Bearish	Hold	Despite a sharp pullback from its peak near 250, ORCL remains comfortably above your entry of 183.7172. Holding is logical here to see if the stock can stabilize and bounce off the near-term support level at 209.45.
SNDK	1418.1652	1559.32	1861.00	1514.36	Bearish	Hold	Currently above your entry cost of 1418.1652. The sudden drop on June 5 indicates severe selling pressure. Hold, but consider protecting your profits with a tight stop-loss just below the 1514.36 support level.
