WATCHLIST TECHNICAL SUMMARY (SET)

Generated automatically on 2026-08-03 10:21:29 (Thailand Time) | Macro Regime: Bullish

Ticker	Cost	Price	Support	Resist.	OBV	MACD	Trend	Rec.	Important Note (THB Context)
ADVANC.BK	376.97	380.00	368.00	387.00	Rising	Bearish Territory	Sideways	Take-Profit Exit	Profitable position (+0.8%) but showing technical exhaustion. Rising OBV is undermined by MACD in Bearish Territory and price stalled at 380.00 with poor R/R of 1:0.58 (unfavorable). Recent close trend shows volatility without breakout momentum. Lock profits before resistance capitulates further.
AOT.BK	61.76	63.75	60.50	65.00	Falling	Bearish Territory	Bearish	Take-Profit Exit	Profitable (+3.2%) but OBV is Falling (volume drain) and MACD is in Bearish Territory, signaling momentum loss. Poor R/R of 1:0.38 and price clustering near resistance ceiling at 65.00 without conviction. Exit to preserve gains in this weakening technicals setup.
KBANK.BK	231.39	244.00	227.00	246.00	Rising	Bearish Territory	Bullish	Hold	Profitable (+5.5%) with Rising OBV confirming volume accumulation. Although MACD is in Bearish Territory, the strong uptrend from 231?244 and rising volume indicate structural demand. Poor R/R of 1:0.12 at resistance ceiling warrants caution, but hold to monitor if this Rising OBV can drive a fresh breakout above 246.00 support zone.
GULF.BK	67.46	66.75	61.25	68.50	Rising	Bullish Crossover	Bearish	Hold	Underwater position (-1.1%) but shows a Bullish Crossover in MACD with Rising OBV?classic early-stage accumulation signal. Price at 66.75 is above 1Mo Support of 61.25, providing a 1:0.32 R/R with room to bounce. The rising volume + bullish MACD combo justifies holding for a demand-zone rebound toward resistance.

WATCHLIST TECHNICAL SUMMARY (SET)

Generated automatically on 2026-08-03 10:21:30 (Thailand Time) | Macro Regime: Bullish

Ticker	Cost	Price	Support	Resist.	OBV	MACD	Trend	Rec.	Important Note (THB Context)
IVL.BK	23.61	22.10	21.70	25.75	Falling	Bearish Territory	Bearish	Support-Aware Stop-Loss	Underwater position (-6.4%) with Falling OBV and Bearish Territory MACD signaling weakness. Latest close at 22.10 is perilously close to 1Mo Support of 21.70. Despite 'High-Conviction Bounce' R/R label, the combination of falling volume and bearish technicals indicates no structural demand. Cut losses immediately if price breaks below 21.70 support floor.
PTTGC.BK	36.17	36.75	33.50	41.75	Falling	Bearish Crossover	Bullish	Take-Profit Exit	Profitable (+1.6%) with favorable 1:1.54 R/R, but OBV is Falling and MACD is in a Bearish Crossover?clear exhaustion signals. Recent close trend shows retreat from 40.50 highs back to 36.75, contradicting bullish narrative. Despite good profit and R/R, the falling volume and bearish crossover warrant profit-taking before further deterioration.
PRM.BK	8.69	10.10	8.90	10.40	Rising	Bullish Territory	Bullish	Hold (Accumulate)	Profitable (+16.2%) with Rising OBV and MACD in Bullish Territory?core momentum setup intact. Price at 10.10 is pushing aggressively at 1Mo Resistance of 10.40 on rising volume. Although R/R is poor at 1:0.25, the combination of rising accumulation and bullish MACD profile suggests breakout potential. Hold and accumulate on any pullback to 9.40 support.

WATCHLIST TECHNICAL SUMMARY (SET)

Generated automatically on 2026-08-03 10:21:30 (Thailand Time) | Macro Regime: Bullish

Ticker	Cost	Price	Support	Resist.	OBV	MACD	Trend	Rec.	Important Note (THB Context)
BCP.BK	37.64	44.75	34.50	46.00	Rising	Bullish Territory	Bullish	Hold	Highly profitable (+18.9%) with Rising OBV and MACD in Bullish Territory confirming accumulation and momentum. Price at 44.75 is very close to 1Mo Resistance of 46.00. Poor R/R of 1:0.12 at resistance suggests caution, but the rising volume + bullish MACD justifies holding to watch for a breakout. If resistance breaks, this becomes a key structural level.
KTB.BK	40.69	44.25	38.75	44.50	Rising	Bullish Crossover	Bullish	Hold (Accumulate)	Profitable (+8.7%) with Rising OBV and Bullish Crossover in MACD?powerful early accumulation signal. Price at 44.25 is near 1Mo Resistance of 44.50 on massive volume (1.68B), indicating institutional demand. Extremely poor R/R of 1:0.05 at resistance, but the colossal rising volume + fresh bullish crossover override standard exit rules. Hold and accumulate for breakout above 44.50.
PTT.BK	36.40	38.50	36.00	40.00	Falling	Bearish Territory	Bearish	Take-Profit Exit	Profitable (+5.8%) but showing clear technical fatigue. OBV is Falling (volume drain from highs), MACD is in Bearish Territory, and recent close trend shows retreat from 39.75 toward 38.50. R/R is moderate at 1:0.60, but the combination of falling volume and bearish MACD signals momentum exhaustion. Lock in profits before further deterioration.

Daily Thai Market Report (Claude Edition)

WATCHLIST TECHNICAL SUMMARY (SET)

Generated automatically on 2026-08-03 10:21:30 (Thailand Time) | Macro Regime: Bullish

Ticker	Cost	Price	Support	Resist.	OBV	MACD	Trend	Rec.	Important Note (THB Context)
PTTEP.BK	144.03	149.00	131.50	153.00	Falling	Bullish Territory	Bullish	Take-Profit Exit	Profitable (+3.5%) but OBV is Falling despite MACD remaining in Bullish Territory?classic divergence signaling momentum loss. Price at 149.00 has retreated from 151.50 highs, and R/R is poor at 1:0.23 near resistance. Falling volume in a profitable position with limited upside warrants profit-taking to preserve gains.
TRUE.BK	14.00	14.40	12.80	14.60	Rising	Bullish Territory	Bullish	Hold	Profitable (+2.9%) with Rising OBV and MACD in Bullish Territory confirming accumulation momentum. Price at 14.40 is near 1Mo Resistance of 14.60, showing strength. Poor R/R of 1:0.13 at resistance ceiling, but the rising volume + bullish MACD support holding for a test of the 14.60 resistance level where a breakout would signal continuation.
WHAUP.BK	8.06	7.80	6.65	8.50	Rising	Bearish Territory	Bearish	Hold	Underwater position (-3.2%) with Rising OBV offsetting Bearish Territory MACD?shows early accumulation competing with weakness. Price at 7.80 is well above 1Mo Support of 6.65, providing room for bounce with R/R of 1:0.61. The rising volume despite bearish MACD suggests institutional interest; hold above support for demand-zone rebound.

WATCHLIST TECHNICAL SUMMARY (SET)

Generated automatically on 2026-08-03 10:21:30 (Thailand Time) | Macro Regime: Bullish

Ticker	Cost	Price	Support	Resist.	OBV	MACD	Trend	Rec.	Important Note (THB Context)
SCB.BK	142.63	153.00	149.50	160.00	Falling	Bearish Territory	Sideways	Hold	Profitable (+7.2%) with price at 153.00, but OBV is Falling and MACD is in Bearish Territory. However, price remains well above 1Mo Support of 149.50, and R/R is labeled 'High-Conviction Bounce', suggesting structural support zone. Recent volatility (157?151?153) shows consolidation. Hold above 149.50 support for a potential rebound toward 160.00 resistance.
WHA.BK	5.46	4.86	4.74	5.60	Rising	Bearish Territory	Bearish	Hold (Accumulate)	Underwater position (-11.0%) but showing exceptional R/R of 1:6.17?highest in portfolio. Rising OBV indicates accumulation despite Bearish Territory MACD. Price at 4.86 is just above 1Mo Support of 4.74, creating a high-conviction bounce setup. The massive rising volume (1.14B) combined with extreme R/R justifies holding and accumulating on any further weakness toward support.
CPF.BK	19.42	22.50	20.30	22.70	Rising	Bearish Territory	Bullish	Take-Profit Exit	Highly profitable (+15.8%) with Rising OBV confirming volume. However, MACD is in Bearish Territory and price at 22.50 is stalled right at 1Mo Resistance of 22.70 with poor R/R of 1:0.09. The rising volume is insufficient to overcome bearish MACD signal and price exhaustion at resistance. Lock in substantial gains before momentum reverses.

WATCHLIST TECHNICAL SUMMARY (SET)

Generated automatically on 2026-08-03 10:21:30 (Thailand Time) | Macro Regime: Bullish

Ticker	Cost	Price	Support	Resist.	OBV	MACD	Trend	Rec.	Important Note (THB Context)
BDMS.BK	18.47	19.20	18.70	20.10	Rising	Bearish Territory	Bullish	Hold (Accumulate)	Profitable (+3.96%) with Rising OBV showing volume accumulation and favorable R/R of 1:1.80 with significant upside room. MACD is in Bearish Territory but early rising volume profile suggests accumulation phase. Price at 19.20 is above 1Mo Support of 18.70 with room to 20.10 resistance. Hold and accumulate on any dips?rising volume combo is driving positional strength.
SCC.BK	256.43	254.00	235.00	263.00	Rising	Bearish Territory	Sideways	Hold	Underwater position (-0.9%) but Rising OBV shows institutional accumulation despite Bearish Territory MACD. Price at 254.00 is well above 1Mo Support of 235.00, providing 1:0.47 R/R with room to test 263.00 resistance. Recent close trend shows consolidation with rising volume underneath. Hold above support for accumulation to complete before potential breakout.
