Stock Name	Cost	Latest Price	Support	Resistance	Trend	Recommendation	Important Note
MU	424.62	864.01	627.58	1089.29	Bullish	Hold	Currently holding massive gains relative to your 424.62 entry. While the stock has experienced a deep correction from its 1079.57 high, the primary trend remains structurally bullish. Hold to allow the current pullback to find a floor above key support at 627.58.
NVDA	220.80	205.10	198.38	236.26	Bearish	Buy	The position is currently underwater relative to your 220.80 entry. With the price trading at 205.10 and approaching key 1-month support at 198.38, this presents a technically sound opportunity to Buy and average down your entry cost.
ORCL	183.72	213.68	178.80	250.25	Bullish	Hold	You maintain a solid profit margin from your 183.72 entry. The primary uptrend is intact despite a pullback from the peak near 248.15. Hold and monitor support at 178.80 to protect capital.
SNDK	1418.17	1559.32	1277.33	1861.00	Bullish	Hold	Trading comfortably above your entry of 1418.17. The primary trend remains bullish despite the recent pullback from 1831.50. Hold the position as your entry remains protected above the 1277.33 support.

Stock Name	Cost	Latest Price	Support	Resistance	Trend	Recommendation	Important Note
MSFT	455.37	416.67	400.01	466.32	Bearish	Buy	Your position is underwater relative to the 455.37 entry. However, the drop to 416.67 brings the stock close to strong historical support at 400.01. This represents an attractive risk-reward window to Buy and average down.
VST	150.21	148.76	132.66	168.39	Bullish	Hold	The price is trading virtually flat relative to your 150.21 entry cost. The macro trend remains constructively bullish. Hold the position and watch for a rebound off the 132.66 support level.
TSM	424.30	415.17	385.06	450.16	Bullish	Hold	Position is slightly underwater from your 424.30 entry. Despite the recent corrective price action, the overall structure remains bullish. Hold the position to see if the stock stabilizes above 385.06 support.
LLY	971.12	1131.42	941.64	1166.29	Bullish	Hold	Excellent entry at 971.12. The stock is in a strong, steady bullish uptrend and is currently closing in on the 1-month resistance at 1166.29. Hold to let your profits run, using 941.64 as macro support.

Stock Name	Cost	Latest Price	Support	Resistance	Trend	Recommendation	Important Note
LRCX	305.41	303.28	263.71	346.19	Bullish	Hold	Trading right at your 305.41 break-even level. The medium-term structure is still bullish despite the pullback from the 343.71 high. Hold to see if buyers step in before key support at 263.71.
NOW	107.68	112.45	85.44	139.20	Bullish	Hold	Maintaining a minor profit relative to your 107.68 entry. The trend remains bullish overall. Hold the position and monitor for signs of a reversal back toward resistance at 139.20.
AMD	448.37	466.38	393.36	546.44	Bullish	Hold	Currently up slightly from your 448.37 entry. The trend remains structurally bullish, but momentum has cooled following a swift pullback from 542.52. Hold and watch for base formation above 393.36 support.
CACI	524.53	531.41	465.00	545.29	Bullish	Hold	The stock is grinding higher in a steady bullish trend just above your entry of 524.53. It is currently testing near-term resistance at 545.29. Hold to see if it can breakout to new highs.

Stock Name	Cost	Latest Price	Support	Resistance	Trend	Recommendation	Important Note
AVGO	446.13	385.73	385.59	495.00	Bearish	Buy	The stock has fallen significantly below your entry of 446.13 and is currently testing critical, multi-month support at 385.59. This is a highly favorable technical area to Buy and average down ahead of a potential bounce.
ANET	171.11	154.27	135.13	177.48	Bullish	Hold	Position is underwater relative to your 171.11 entry. However, the price has not yet reached key support at 135.13. Hold the position and wait for further stabilization before considering adding to the position.
