Stock Name	Latest Price	Resistance	Support	Trend	Important Note
MU	864.01	1089.29	820.30	Bearish	A sharp mean reversion peak at 1089.29 led to a high-volume decline of 76.5M shares on 6/05, suggesting heavy distribution. Immediate support lies at 820.30.
NVDA	205.10	232.01	204.33	Bearish	Broke down below key psychological support of 210 on high volume of 218M on 6/05. Consolidating right at the critical support floor of 204.33.
ORCL	213.68	250.25	209.45	Bearish	Sharp retracement from the 250.25 breakout peak. The stock is currently testing structural support at the 209.45 gap-up base on rising volume.
SNDK	1559.32	1861.00	1514.36	Bearish	Intense selling pressure dragged the stock below major levels from its peak of 1861.00. Defending 1514.36 is vital to preserve the medium-term uptrend.
MSFT	416.67	466.32	409.58	Bearish	Failed to hold the late-May breakout over 460. A complete round-trip has returned the stock to its consolidation baseline support at 409.58.
VST	148.76	167.40	147.50	Bearish	A steady distribution trend has breached key psychological support at 150. A clean breakdown below 147.50 confirms further target downside.
TSM	415.17	450.16	412.79	Bearish	Erased several sessions of gains in a rapid high-volume sell-off. Must defend 412.79 support to avoid triggering an intermediate-term bearish head-and-shoulders.
LLY	1131.42	1166.29	1052.15	Bullish	Shows exceptional relative strength against the broad market. Printed a new high of 1166.29 on 6/05 and closed near highs, signaling continued upward momentum.
LRCX	303.28	346.19	302.74	Bearish	Experiencing aggressive profit-taking from the peak of 346.19. The latest session closed on the absolute lows, risking a breakdown below support at 302.74.
NOW	112.45	139.20	111.56	Bearish	Severe pullback from the 139.20 peak has reached key support at 111.56, which matches the late-May breakout base.
AMD	466.38	546.44	461.71	Bearish	Suffered a major 15% drop from its 546.44 high within two sessions. The 461.71-463.95 structural floor is the last line of defense against long-term trend damage.

Stock Name	Latest Price	Resistance	Support	Trend	Important Note
CACI	531.41	545.29	510.77	Bullish	Consolidating in a tight bullish structure near historical highs, shrugging off market headwinds. A daily close above 545.29 triggers a clean breakout.
AVGO	385.73	495.00	385.59	Bearish	Massive institutional liquidation led to a capitulation below 400. Record volume of 80M and 50M shares over the last two sessions indicates a potential climax low.
ANET	154.27	177.48	152.19	Bearish	Completely unwound its late-May rally back to its base of 152.19. Failure to hold this level exposes the stock to structural decline down to 149.00.
