WATCHLIST TECHNICAL SUMMARY (SET)

Generated automatically on 2026-09-03 16:29:41 (Thailand Time) | Macro Regime: Bullish

Ticker	Cost	Price	Support	Resist.	OBV	MACD	Trend	Rec.	Important Note (THB Context)
BH	190.69	195.00	185.82	207.00	Rising	Bearish Territory	Sideways	Take-Profit Exit	Position is profitable at 195.00 THB with R/R of 1:1.31. Rising OBV shows volume support, but Bearish Territory MACD signals momentum exhaustion near resistance, triggering a Take-Profit Exit.
GULF	67.25	61.50	60.15	64.31	Falling	Bearish Territory	Bearish	Hold	Position is unprofitable at 61.50 THB. Falling OBV and Bearish Territory MACD reflect weak momentum, but holding above 60.15 THB support with High-Conviction Bounce R/R warrants holding without deploying new capital.
SCC	260.44	252.00	232.00	256.25	Falling	Bullish Territory	Sideways	Hold	Unprofitable position at 252.00 THB with weak 1:0.21 R/R ratio. Bullish Territory MACD offers structural support despite Falling OBV; position maintained above 232.00 THB support for recovery.
TU	13.28	13.20	12.47	13.29	Rising	Bearish Territory	Sideways	Hold	Unprofitable position at 13.20 THB with an R/R of 1:0.12 near resistance. Rising OBV provides volume backing while Bearish Territory MACD limits upside; maintain existing position above 12.47 THB support.
AOT	-	63.00	55.75	64.19	Rising	Bearish Territory	Bearish	Hold	Watchlist stock at 63.00 THB. Rising OBV indicates baseline accumulation, but Bearish Territory MACD and poor 1:0.16 R/R near resistance require staying on the sidelines until a setup matures.
BCP	-	58.25	43.92	59.75	Rising	Bullish Territory	Bullish	Hold	Watchlist asset at 58.25 THB testing resistance. Rising OBV paired with Bullish Territory MACD confirms strong upward trend, but restrictive 1:0.10 R/R requires waiting for a breakout or pullback.
BDMS	20.01	20.60	19.66	20.60	Rising	Bullish Crossover	Bullish	Hold	Profitable position at 20.60 THB testing resistance. Intact momentum via Rising OBV and fresh Bullish Crossover MACD justifies holding to ride gains despite Poor (At Resistance) R/R without adding risk.
KTB	44.54	43.75	42.43	43.85	Rising	Bearish Territory	Sideways	Hold	Unprofitable position at 43.75 THB. Rising OBV indicates solid underlying liquidity, but Bearish Territory MACD and unfavorable 1:0.08 R/R near ceiling mandate holding above 42.43 THB support.

WATCHLIST TECHNICAL SUMMARY (SET)

Generated automatically on 2026-09-03 16:29:42 (Thailand Time) | Macro Regime: Bullish

Ticker	Cost	Price	Support	Resist.	OBV	MACD	Trend	Rec.	Important Note (THB Context)
PTT	41.54	41.25	39.05	42.00	Rising	Bullish Territory	Bullish	Hold	Unprofitable position at 41.25 THB. Rising OBV combined with Bullish Territory MACD shows healthy institutional backing; maintain holding despite modest 1:0.34 R/R for recovery toward 42.00 THB resistance.
TRUE	14.09	12.90	12.20	13.87	Falling	Bearish Territory	Bearish	Hold	Unprofitable position at 12.90 THB. Falling OBV and Bearish Territory MACD dictate caution, but reasonable 1:1.38 R/R above 12.20 THB support justifies holding for potential bounce.
WHA	4.88	4.76	4.58	4.83	Falling	Bearish Territory	Bearish	Hold	Unprofitable position at 4.76 THB. Weak momentum marked by Falling OBV and Bearish Territory MACD; hold position above 4.58 THB support given 1:0.37 R/R near short-term resistance.
GPSC	-	49.50	39.00	53.74	Falling	Bearish Crossover	Bearish	Hold	Watchlist stock at 49.50 THB. Falling OBV and negative Bearish Crossover MACD combined with poor 1:0.40 R/R mandate remaining uninvested until structural support holds.
ADVANC	-	345.00	344.00	374.25	Falling	Bearish Territory	Bearish	Hold	Watchlist stock at 345.00 THB. Despite High-Conviction Bounce R/R potential near 344.00 THB support, Falling OBV and Bearish Territory MACD preclude fresh capital entry.
SCB	-	152.00	150.98	152.86	Falling	Bearish Territory	Sideways	Hold	Watchlist stock at 152.00 THB near resistance. High-Conviction Bounce R/R potential is invalidated by persistent Falling OBV and Bearish Territory MACD, preventing entry.
OR	12.65	12.50	12.44	12.63	Falling	Bullish Territory	Sideways	Hold	Unprofitable position at 12.50 THB. Bullish Territory MACD provides price stabilization despite Falling OBV; hold position above 12.44 THB support leveraging High-Conviction Bounce setup.
IVL	22.34	25.25	22.12	25.75	Rising	Bullish Territory	Bullish	Hold	Profitable position at 25.25 THB. Strong momentum driven by Rising OBV and Bullish Territory MACD justifies holding to let profits run despite capped 1:0.16 R/R near resistance.
KBANK	-	249.00	230.00	259.00	Rising	Bearish Territory	Sideways	Hold	Watchlist stock at 249.00 THB. Rising OBV displays institutional volume accumulation, but Bearish Territory MACD and low 1:0.53 R/R prevent new position entry at present.
